

NEIGHBORHOOD GREEN PROGRAM

Offered in collaboration by Frederick & Carroll County Government and
the Monocacy & Catoclin Watershed Alliance with funding from the National Fish and Wildlife Foundation

**Let's work together to plant trees & shrubs on unused portions of your lawn;
An environmentally-friendly yard can save you time and money in the future!**

- **Create more privacy with a wind-break or a sound buffer:** Our foresters can meet with you on your property to provide personalized advice for a "natural" boundary fence...
- **Attract more birds:** Attend our workshop to learn how to create safe & attractive wildlife habitat...
- **Reduce money spent on mowing and fertilizing:** Apply to have trees & shrubs planted on your property at very little cost thanks to grant money from the National Fish & Wildlife Foundation*...

NEIGHBORHOOD GREEN WORKSHOP

Saturday, May 18, 2013

9am to noon (Sign-in & refreshments start at 8:30am)

Linganore High School

To include presentations on Reforestation & Invasive Species Control; Nutrient Management; Creating Wildlife-Friendly Habitat; and a photographic journey through planting projects by previous Neighborhood Green program participants.

Register at www.FrederickCountyMD.gov/NGreen

Free soil tests and (optional) site visits offered to all workshop attendees!

*Not all applicants will be eligible.

Interested but unable to attend the workshop? Visit www.FrederickCountyMD.gov/NGreen to fill out an interest form or contact Heather Montgomery at 301-600-1741 or HMontgomery@FrederickCountyMD.gov.
